Organizers and Sponsors of the conference International Scientific Days 2016 *The Agri-Food Value Chain: Challenges for natural resources Management and Society*, 19-20 May, 2016, Nitra, the Slovak Republic

Many thanks to all international partners which have contributed to this event.
Foreword

Dear colleagues and friends,

At this very moment you are opening the book of abstracts from the international scientific conference International Scientific Days 2016 organized under the theme: "The Agri-Food Value Chain: Challenges for Natural Resources Management and Society" by the Faculty of Economics and Management of the Slovak University of Agriculture in Nitra, Slovak Republic. This conference with 274 participants from 23 countries is very good starting point for presenting new ideas or critical statements, sharing information and for establishing cooperation. International Scientific Days 2016 provides a venue for policy makers, top managers, academics and researches that deal with economic and management issues related to specific issues within the agri-food chains and natural resources management.

Broad changes are taking place in food and agricultural sector worldwide. In connection to the new EU countries the accession led to the number of changes with significant impact on performance and role of this sector. The global financial crisis and the accompanying slowdown of the economy reversed to the increased commodity prices which strongly impacted the food security and poverty of net food consumers. While the farmers could benefit from the higher commodity prices, at the same time, a reduction in real term wages, decreased employment which have negatively affected the income of households in the region and increased poverty. Diversification of activities on the income generation activities in the market economy conditions is the key factor for the economic survival of farms. The important challenge is also to achieve balanced and sustainable growth of rural economies.

International Scientific Days 2016 provide the platform for dissemination of activities and outcomes of the two international project coordinating by the Faculty of Economics and Management SUA Nitra: TEMPUS project "Development of Public Accreditation of Agricultural programs in Russia (PACAgro) 2013-2016" (Project No. 543902-TEMPUS-1-2013-SK-TEMPUS-SMGR, co-funded by the Tempus Programme of the European Union) and Strategic partnership project "Food Quality and Consumer Studies (FOODCOST) 2014 - 2017" (Project No. 2014-1-SK01-KA203-000464, co-funded by the Erasmus+ Programme of the European Union within the Strategic Partnership frame).

I would like to take this opportunity to thanks all policy makers, academics, researchers, managers and sponsors which accepted our invitation and became active member of the conference. My special thank belongs all of the people who made this conference successful and valuable experience for each and every one of us.

Elena Horská

PLENARY SESSION: The agri-food value chain: Challenges for natural resources management and society

*Economic aspects of the EU agricultural sector: new challenges both home and away*
  Bližkovský Petr ................................................................. Chybal Záložka nie je definovaná.

SESSION 1: Food security, trade and agricultural policy

*Decision making analysis of cotton producers via Edinburgh scale*
  Cankurt Murat, Cobanoglu Ferit, Ozden Altug................................................................. 29

*Priority directions of development of export agro-food productions of Ukraine*
  Dibrova Anatolii, Dibrova Larysa, Dibrova Maksym .......................................................... 39

*The state of rural women and their role at the achievement of food security*
  Jacková Silvia, Kadlečíková Mária, Košuda Jozef, Juríčková Zuzana................................. 47

*Market trends of oilseeds production in Ukraine*
  Kuzmenko Sergii, Perederiy Nataliya, Labenko Oleksandr.................................................. 54

*The process of structural changes in Iberian Peninsula agriculture*
  Piecuch Jakub, Niewiadomski Michal..................................................................................... 62

*Foreign trade with agricultural products in the Slovak Republic*
  Smutka Ľuboš, Rovný Patrik, Hambalková Mária................................................................. 68

*Are agricultural subsidies causing more harm than good? Evidence from agricultural sector of Republic of Macedonia*
  Trendov Nikola, Olagunju Kehinde, Pesevski Mile............................................................... 75

*The impact of Slovak entry into the EU on the selected indicators of wheat production in production areas*
  Urbánová Mária.......................................................................................................................... 83

*Cooperation of small farms in agriculture complex of the Republic of Kazakhstan*
  Yegizbayeva Gulnur .................................................................................................................... 92

SESSION 2: Bioeconomy, resource management and sustainable development

*Evaluation of the impact of labour costs development on grapevine production in the Slovak Republic through algorithms*
  Bajusová Zuzana, Svoradová Lucia, Dobák Dušan, Bajus Peter ........................................... 102
Price linkages between biodiesel and selected vegetable oils
Kapusta Jaroslav, Lajdová Zuzana

Future possible uses of renewable energy in the V4 countries
Magda Róbert

The sustainability of economic growth in agriculture of Russia as a result of incompleteness
of institutional changes
Migunow Rishat Anatolyvich

Economic weights as a tool for sustainable livestock farming
Michaličková Monika, Krupová Zuzana, Krupa Emil, Zavadilová Ludmila

Food security in the European countries
Palkovič Jozef, Fusková Martina

Comparative analysis of Conventional and conservation agriculture
Pirmatov Khabibullo, Pulatov Alim, Horská Elena

Economic aspects of fresh apricot production in Turkey
Uçar Kubilay, Engindeniz Sait

SESSION 3: The agri-food value chain analysis: economics, management
   and logistics

Agro-ecological modernization of agriculture for sustainable development
Boincean Boris

Analysis of burn-out syndrome of top and middle management
Brúnaiová Zuzana, Šajbidorová Mária

Estimating interaction between income and expenditures for food and non-alcoholic
beverages in Slovakia
Hupková Daniela

Impact of sanctions on agricultural policy in European Union and Russia
Kapsdorferová Zuzana, Sviridova Olga

Application of net present value by the land purchase
Ladvenicová Jana, Miklovičová Silvia

Cost management strategy for energy use in agriculture: EU Sample
Ozden Altug, Armagan Goksel

The problems of winemaking in Poland: the case study of winemakers from Malopolska
wine route
Pink Małgorzata, Ligenzowska Joanna
SESSION 4: Entrepreneurship and corporate social responsibility

*Application of the Kaizen philosophy – a road to a learner business*
Čierna Helena, Sujová Erika, Ťavodová Miroslava .......................................................... 237

*The dynamics of entrepreneurship development in the east Poland on against in the country 2006-2014*
Klepacka-Dunajko Izabela, Niewęgłowski Marek, Dunajko Damian ........................................ 246

*Peculiarities of corporate social responsibility in veterinary pharmacy*
Džupina Milan, Džupinová Zuzana ....................................................................................... 256

*Social responsibility of manufacturers of crystal glass in the context of ensuring food safety. Case study*

The problem of cheating and plagiarism of students at the Faculty of Economics and Management of SUA in Nitra
Hallová Marcela, Hanová Martina ........................................................................ 592

Some remarks on learner autonomy in Esp classes
Holúbeková Andrea, Fördősová Mária, Klimentová Katarína ................................................................. 598

Intercultural communication between Chinese and Slovak managers
Horváthová Jarmila, Zhang Changhui ........................................................................ 607

Quality assurance of agricultural university education in Russia and Europe
Kapsdorferová Zuzana, Sviridova Olga ........................................................................ 613

The definition of energy intensity of living labour of the employee
Kasumov Novruz ........................................................................................................ 622

Mathematical competences as a part of educational objectives in economical and technical study programs
Matušek Vladimír, Drábeková Janka, Országhová Dana, Farkašová Mária ......................... 628

Neurodidactics and its utilization in the field of language teaching
Moravcová Ľubomíra, Maďarová Ľudmila ........................................................................ 634

Thought leadership as an innovative way of teaching
Nagyová Ľudmila, Horská Elena, Košičiarová Ingrida, Moroz Serhiy ......................................................... 100

Mathematics study outcomes as an indicator of the quality of the university education
Országhová Dana, Kozelová Dagmar, Baraníková Helena, Hornyák Gregáňová Radomíra, Vollmannová Alena ................................................................. 652

From multimedia to virtual worlds - innovative learning at Slovak university of Agriculture
Palková Zuzana ........................................................................................................ 659

Mathematics and statistics in global education
Pechočiak Tomáš, Kecskés Norbert ........................................................................ 668

Competence requirements of employers to graduates of agro-engineering universities (specialties)
Perekopskiy Aleksandr, Dobrinov Aleksandr, Golokhvastov Andrei ......................................................... 675
Evaluation of the indicators of professional public accreditation of agricultural study programs
Petropavlovskiy Mikhail, Nefedova Olga, Smelik Viktor ......................................................... 681

Retrospective view on teaching the Slovak language at the Slovak University of Agriculture in Nitra
Prídavková Viera, Matušeková Eva .......................................................................................... 688

E-performance observation in teaching foreign languages
Rebičová Zuzana ..................................................................................................................... 107

Selected problems of sugar beet growing in Slovakia
Récky Roman, Horváthová Jarmila ............................................................................................ 703

Partnership experience between Russian and European universities in agrarian profile educational programs quality providing
Shirokov Sergey, Smelik Victor, Ovchinnikova Elena ................................................................. 109

Roles of business ethics in new global economic environment
Svitačová Eva, Kováčiková Elena ............................................................................................. 714

Conceptual modernization and methodological support of courses in higher education pedagogy at Slovak University of Agriculture
Šeben Zatková Timea .............................................................................................................. 722

SESSION 9: Information and communication technologies

Information as a base of information and communication technologies
Achimská Veronika, Kramárová Katarína ................................................................................... 732

University network with security aspects and redundancy to ISP
Beňo Pavel .................................................................................................................................... 739

Management of IT environment end users and the impact of new technological solutions
Oláhová Eva ................................................................................................................................... 746

Influence mobile devices to the educational process
Szivósová Mária ........................................................................................................................ 752

Overcoming barriers to efficient farm management: the role of knowledge and information management in the rural advisory sector
Kiełbasa Barbara ...................................................................................................................... 758
SESSION 10: Food marketing and consumer studies - organized session within FOODCOST international workshop „Bridging traditions with novelties“

The market of milk and dairy products in Russia: peculiarities, tendencies and prospects of development
Guziy Snezhanna
770

Development and level of consumption of chosen foods in Slovakia and Austria
Kubicová Ľubica, Kádeková Zdenka
777

Food consumption behaviour in seniors´ segment
Lesakova Dagmar
783

Consumer behaviour on the market of food supplements
Németh Nikolett
122

The atmosphere and its impact on consumer behavior in food stores
Paluchová Johana, Berčík Jakub, Neomániová Katarína
804

Prosumer attitudes as a new component of consumer behaviour on the food market
Matysik-Pejas Renata, Szafránska Monika, Krasnodębski Andrzej
812

Current trends in the global wine market
Regnerová Olga, Hes Aleš
820

Producer’s organization and digital technologies for farms’ competitiveness
Santovito Savino, Silvestri Raffaele, Lamonaca Emilia, Conto Francesco
828

Consumer shopping behaviour in the Nitra city
Trembošová Miroslava, Dubcová Alena, Kramáreková Hilda
836

Boomerang effect of a negative campaign – a case study from the market of beverages
Tiago Manuel
850

SESSION 11: Market research, new technologies and interdisciplinary approaches - organized session within FOODCOST international workshop „Bridging traditions with novelties“

Time factor as one of the aspect that influences shopping in the food stores
Berčík Jakub, Paluchová Johana, Horská Elena
129

Trends in utilization of selected technologies in grocery stores
Nagyová Ľudmila, Berčík Jakub, Horská Elena
866

The influence of product placement in Czech movies and tv shows among generation Y
Slováčková Tereza, Souček Martin
874
Qualitative evaluation of chosen online and offline communication means towards visitors of a selected city
Tluchoř Jan, Janeček Petr, Rymusová Martina

SESSION 12: Agricultural markets and institutions – organized session by the Association of Agricultural Economists in Slovakia

Infrastructure, institutions, and economic growth in transition countries: A dynamic panel data approach
Badalyan Gohar, Herzfeld Thomas, Rajčániová Miroslava

Factors affecting the food gap and the share of self-sufficiency of selected commodities: The case of Arab countries
Elbogghi Elham Giuma, Alawad Abdullah, Qineti Artan

Efficiency and productivity of the Slovak agricultural investment support beneficiaries
Hurrňáková Jaroslava, Bartová Ľubica, Fandel Peter

Leadership models in European retail industry
Hürter Michael, Lančarič Drahoslav, Pokrivčák Ján

Agriculture and economic development in Uzbekistan
Malikov Numonjon, Qineti Artan, Pulatov Alim

Impact of attention driven investments on agricultural commodity prices
Mišečka Tomáš, Pokrivčák Ján, Ciaian Pavel

Economic growth and its determinants across CEE countries
Pokrivčák Ján, Záhorský Tomáš

Demand for food diversity in the case of Kosovo
Qineti Artan, Braha Kushtirim, Cupák Andrej, Pokrivčák Ján

Selected aspects of talent management in companies in Slovakia
Savov Radovan, Lančarič Drahoslav, Paška Ľubomír, Rábek Tomáš

Applying Markowitz portfolio theory to measure the systematic risk in agriculture
Tóth Marián, Holúbek Ivan, Serenčéš Roman

Determinants of efficiency in agriculture in CEE countries
Záhorský Tomáš, Pokrivčák Ján

Decision support tool for replacement heifer management: a strategy comparison
Záhradník Miroslav, Pokrivčák Ján

Using decision support tool for dairy farm management to assess the economic impact of various feeding scenarios
Záhradník Miroslav, Pokrivčák Ján
SESSION 13: Doctoral session „Young science“

Good practice examples from a small settlement
Gerencsér Ilona .................................................................................................................. 149

Applied prosocial behavior of companies – social marketing
Hodinková Dana .................................................................................................................. 150

Research of the impact of agricultural policies on the efficiency of farms
Kollár Bohuš, Sojková Zlata ............................................................................................... 151

Organic food and its position in retail stores in Slovak Republic
Kubelaková Andrea, Košíčiarová Ingrid ........................................................................... 152

The development of small and medium-sized enterprises in Nitra region
Mráziková Kecskés Mária, Svitová Emília ........................................................................ 153

The use of HRV analysis in the marketing research
Rybanská Jana, Nagyová Ľudmila, Košíčiarová Ingrida ................................................... 154

Quality in rural tourism services
Skálová Eva, Peruthová Astrida ......................................................................................... 155

Land use optimization with respect to alternative costs of crop production choices – case of Slovakia
Svetlanská Tatiana, Turčeková Natália ................................................................................ 156

Implementation, development and evaluation of quality management system in selected companies
Svitová Emília, Mráziková Kecskés Mária ......................................................................... 157

Environmental good practice to life with the help of renewable energy through the example of some settlements
Szeberényi András ............................................................................................................. 158

Marketing novelties in promoting traditional meals
Šimončič Peter .................................................................................................................... 159

A study of negotiation mechanism based on science of momentum
Zhang Shougang .................................................................................................................... 160
